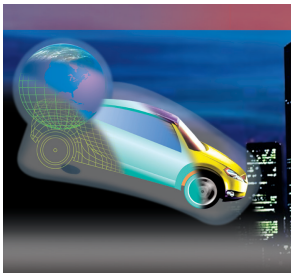
THE ONE STOP SHOP

GRAPHIC • PRINT • WEB SERVICES

WELCOME

Systems Duplicating, like all professional businesses, constantly searches for new ways to build success for our clients. With each challenge comes the **opportunity** to utilize our diverse skill sets and resources to **surpass customer expectations**. Accessing a critical network of industry partners, we have the **knowledge base** necessary to solve and execute any challenges our clients face. Our success depends solely on the success of our clients. From the simplest print run, to that unexpected, last minute crisis, you can rest assured, we'll guide you through it. We are focused on serving our clients in a consistent and professional manner through every challenge.

PROFESSIONAL RELIABLE ACCOMMODATING



GRAPHICS

At the core of our business is SDCI's **talented team** of graphics professionals. For over **20 years**, the team has been creating solutions to visual concepts, and conveying your message clearly and effectively. We accept and create Mac and Windows files, in all major media formats: CDs, DVDs, Jaz, Zip, floppy, or through email or FTP.

CORPORATE IDENTITY BROCHURES PUBLICATIONS

WEB SERVICES

Looking good on the Web is important, but it's small consolation if your website requires an owner's manual to navigate.

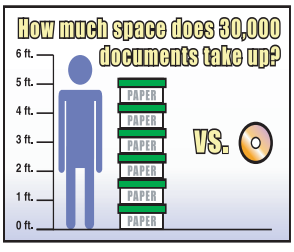
STRATEGY: An effective website requires a **thorough analysis** of your needs, corporate goals and target audience. Next comes **advance planning** by an information architect. This ensures your site is not only logically organized, but also **easily navigated** by customers, and **ranked prominently** on major search engines.

DEVELOPMENT: It also requires a skilled, back-end programmer to deliver a **robust, underlying engine** that withstands heavy traffic and abuse. **Extensive testing is key.**

DESIGN: Finally, an effective website needs an **elegant design and interface** that your customers identify with. One that **reflects your corporate brand character.**

SDCI excels in all of these services. Already have a site? Take advantage of our highly **competitive prices** on web hosting.

E-COMMERCE WEB HOSTING SITE DEVELOPMENT



DOCUMENT IMAGING

We have everything your company needs to create and maintain your electronic documentation, and even provide hard document storage, should you ever need them. We can handle your file server setup, document conversions, programming needs and prepare an **easy monthly maintenance program**. Contact us today for a consultation on how we can help you make the transition to a paperless office environment.

SEARCHABLE PAPERLESS STORAGE

BROCHURES MANUALS FORMS GRAPHIC DESIGN

PRINT

SDCI has over **20 years experience** in the offset printing industry – from single color business cards, to complete, multi-signature magazines – and everything in between. Our experience benefits our clients through ever-increasing quality. **Cost-effective products** are completed in a **timely, efficient manner**.

Multiple inks, coatings, signature combinations, raised inks or integrated finishing processes are worry-free when SDCI's team is on the job.

DIGITAL OFFSET LARGE FORMAT

COPY SERVICES

The business documents you create and use – such as reports, manuals, newsletters and forms – are essential assets. They are often difficult to revise and complex to distribute. Through digital document publishing, we've found a better solution for managing full-color and black and white document production. Digital publishing gives you on-demand printing power, speed and the services you need at highly competitive prices. With digital publishing, you can rip files from a variety of media to produce variable print documents with ease.

VARIABLE PRINT ON-DEMAND

FULFILLMENT AND DISTRIBUTION

An integral part of our **business infrastructure solution** is the warehousing and distribution of client-owned inventory. SDCI provides a **single source** for your distribution and fulfillment needs.

SDCI provides custom packaging, labeling and tracking systems. We have over 20 years experience with foreign and domestic shipments and direct mailing. Whether it's auto parts, invitations or promotional materials, SDCI has the resources and know-how to get the job done right.

WAREHOUSING ONLINE INVENTORY SECURE STORAGE

FACILITY MANAGEMENT/STAFFING

With **20 years experience**, SDCI is able to extend its resources to manage related off-site facilities. In-house graphic, printing, mailroom, or copy centers are non-related operations for many companies and they often do not receive the attention required to run them properly. SDCI refines and **streamlines the operation** of these departments, allowing them to **function efficiently**.

This minimizes corporate management's involvement, allowing you to concentrate on your core business. Staffing, as well as equipment, can be incorporated into the contract agreement. SDCI's facility management program provides an effective way for your company to have the benefits and savings of in-house operations, without the day to day involvement.
